

Baltimore School for the Arts is a nationally recognized public arts high school that provides its students with intensive pre-professional training in the arts in conjunction with a rigorous academic curriculum. BSA graduates go on to the most selective arts and university programs nationwide and achieve prominence in theater, film, music, dance and visual arts. BSA's highly acclaimed TWIGS program offers free after-school arts instruction to 700 city elementary and middle school children from schools across Baltimore, as well as other outreach initiatives to thousands more. Founded in 1979, the school is an integral and vibrant part of Baltimore's educational and cultural communities. For more information, visit www.bsfa.org. We're located at 712 Cathedral Street, Baltimore, MD 21201. *Where the arts change kids' lives*

The **U.S. Department of Education's Student Art Exhibit Program**, now in its 13th year under the direction of the Office of Communications and Outreach and the Office of Innovation and Improvement, features visual and performing arts created by students in U.S. and international schools.

The program provides students and teachers an opportunity to display creative work from the classroom in a highly public place that honors their work as an effective path to learning and knowledge for all. The works also provide Department employees and visitors with both a beautiful environment and the means to be in touch with the Department's principal customers—students.

The program features two exhibits at all times throughout the year: The winners of the Scholastic Art and Writing Awards are exhibited for a year beginning every August; another exhibit, rotated every two to three months, accommodates the many educators who want to exhibit their students' work. Exhibits are currently booked through 2019. To schedule a visit to the exhibits or an exhibit contact Jacquelyn Zimmermann at 202-401-0762 or at jacquelyn.zimmermann@ed.gov. Visit the Student Art Exhibit Program at <http://www.ed.gov/student-art-exhibit/>.
